Go underground!

Kartchner Caverns is a stunning limestone cave that boasts world class features. It is home to one of the world's longest soda straw stalactites at 21 feet 3 inches. See this in Cavern's Throne Room along with the tallest and most massive column in Arizona, Kubla Khan, at 58 feet tall.

The Caverns were discovered in 1974, but kept a secret for many years. Kartchner Caverns is located at the Eastern base of the Whetstone Mountains, just Southeast of Tucson. The area is known for its outstanding beauty, diverse plants, birds and wildlife.
